To: Approved Uniform Grain and Rice Storage Agreement (UGRSA) Warehouse Operators  
RE: Annual Rate Renewal of Storage and Handling Rates

The U.S. Department of Agriculture has decided not to accept any increases in the storage and handling rates. As a result, rates in effect for the 2008-09 contract period will be made effective for the 2009-10 contract, which begins April 1, 2009, unless the warehouse operator requested a decrease in any storage and handling rates.

No other action on the part of the warehouse operator will be necessary.
